

PRINTED CARTON INSTRUCTIONS

Custom Printed Cartons are available with some limitations:

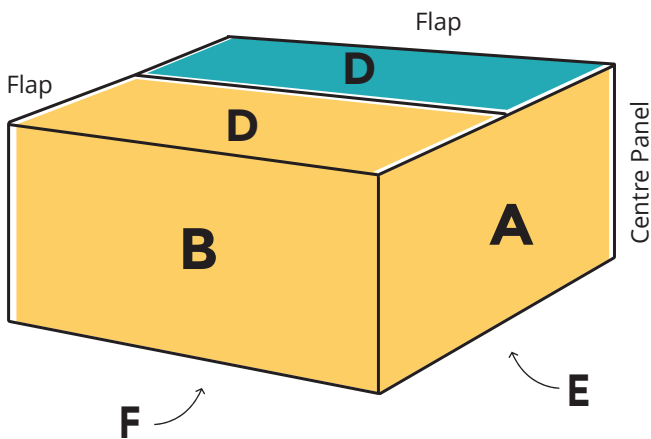

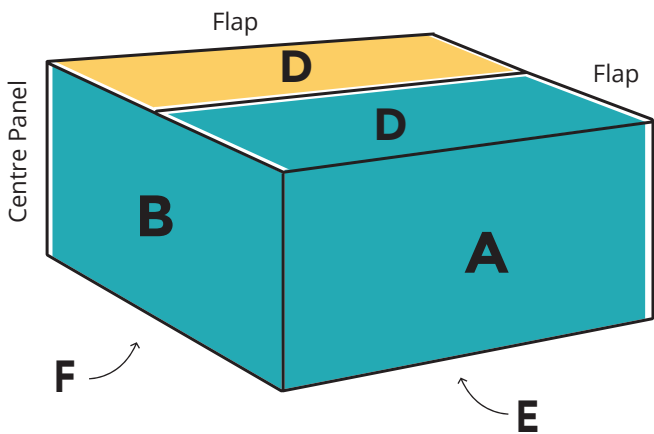

Print areas on each panel are limited to the areas highlighted. Due to the printing process not all panels can be printed to the edge of the carton. This is roughly 5mm on the edge of each panel.

While printing can be undertaken on each panel (external facing only) currently we can only offer the same artwork repeated from Side 1 to Side 2 as shown in the diagrams below.

Overall Carton Size: 540mm x 412mm (1 Side)

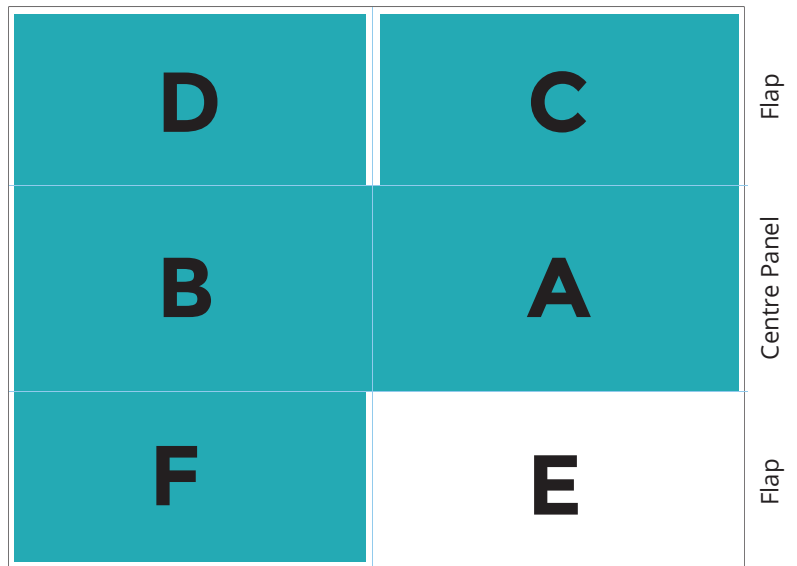

Centre Panel Size: 540mm x 152mm

Top and Bottom Flap Sizes: 265mm x 130mm
